

# **PROJECT ASTRID**

**Giving her a smile again**

The volunteers did not let the difficult conditions going to Astrid's village stop them!

They braved the rain, the cold, walking a long distance on foot.....

Tired, thirsty, a difficult trip.....

Despite all, SAD pursued it's mission

Our volunteers mobilised the whole village and with them and for them, the objectives of SAD were realized

# This time, the construction of a canteen for Astrid

Using the community to put together a good thing of common interest, SAD agents work hand-in-hand with members of the community

We are almost there!

Only a little more work....

... et voilà!

Returning a smile and a taste of life!

# The community shared our satisfaction....

# Finally a new start for Astrid, under the supervision of SAD

# Giving Astrid a smile again: Mission Accomplished!

Thank you very much to Project Congo  
who made this project possible. It  
allowed a dream to be transformed into  
reality. Thanks to you who fixed  
(rectified) a shattered life.
